

Diabetes Research and Care Within A Learning Health Care System

Julie Schmittziel, PhD

Research Scientist, Kaiser Permanente Northern California Division of Research; Director, Health Delivery Systems Center for Diabetes Translational Research; Associate Director, Kaiser Permanente Delivery Science Fellowship Program

Julie A. Schmittziel, PhD, is a Research Scientist at the Kaiser Permanente Northern California Division of Research. She holds a bachelor's degree in Mathematics from the Massachusetts Institute of Technology, and an MA in Biostatistics and a PhD in Health Services and Policy Analysis from the University of California at Berkeley. Dr. Schmittziel's career focuses on stakeholder engagement and translational research in diabetes and cardiovascular disease, with a particular focus on improving medication adherence and cardiovascular disease risk factor control in diabetes patients.

She has been principal or co-investigator on more than 20 delivery science and health policy research studies, and has published more than 120 papers in peer-reviewed journals. Dr. Schmittziel serves as the Director of the National Institutes of Health-funded Health Delivery Systems Center for Diabetes Translational Research, and is the Associate Director of the Kaiser Permanente Delivery Science Fellowship Program. She is currently a member of the AcademyHealth National Education Council.
